RE: Safety Data Sheets (SDS) For Boring Bars, End Mills, Brazed Tools and Custom Carbide Cutting Tools

To Whom It May Concern,

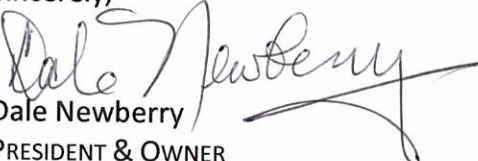

Micro 100 Tool Corporation manufactures and sells carbide cutting tools grouped in the following product lines: Boring Bars, Micro-Quik Tools, End Mills, Brazed Tools, and Custom Carbide Cutting Tools. For the purpose of hazard communication, Boring Bars, Micro-Quik Tools, End Mills, Brazed Tools and Custom Carbide Cutting Tools are "Articles" as defined in 29 CFR 1910.1200(c);

"Article means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, *e.g.*, minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees."

As Articles, Boring Bars, Micro-Quik Tools, End Mills, Brazed Tools and Custom Carbide Cutting Tools are exempt from Safety Data Sheet (SDS) requirements under the *Hazard Communication Standard* (29 CFR 1910.1200(b)(6)(v)). For this reason, Micro 100 Tool Corporation does not have available SDS sheets for its Boring Bars, End Mills, Brazed Tools, and Custom Carbide Cutting Tools product lines.

The information in this letter is valid until **07/01/2019** when it will be re-evaluated by Micro 100 Tool Corporation. Please visit www.micro100.com for additional pertinent information. If you have questions or need further assistance regarding this matter, please contact Micro 100 Tool Corporation at 800.421.8065.

Sincerely,

Dale Newberry
